

# WE'RE USING SPORTS TECHNOLOGY TO PROTECT WORKERS FROM INJURY

Professional Athletes wear small sensors to measure movement, avoid overload and prevent injury. The Preventure platform helps you reduce workplace injuries using the same technology.

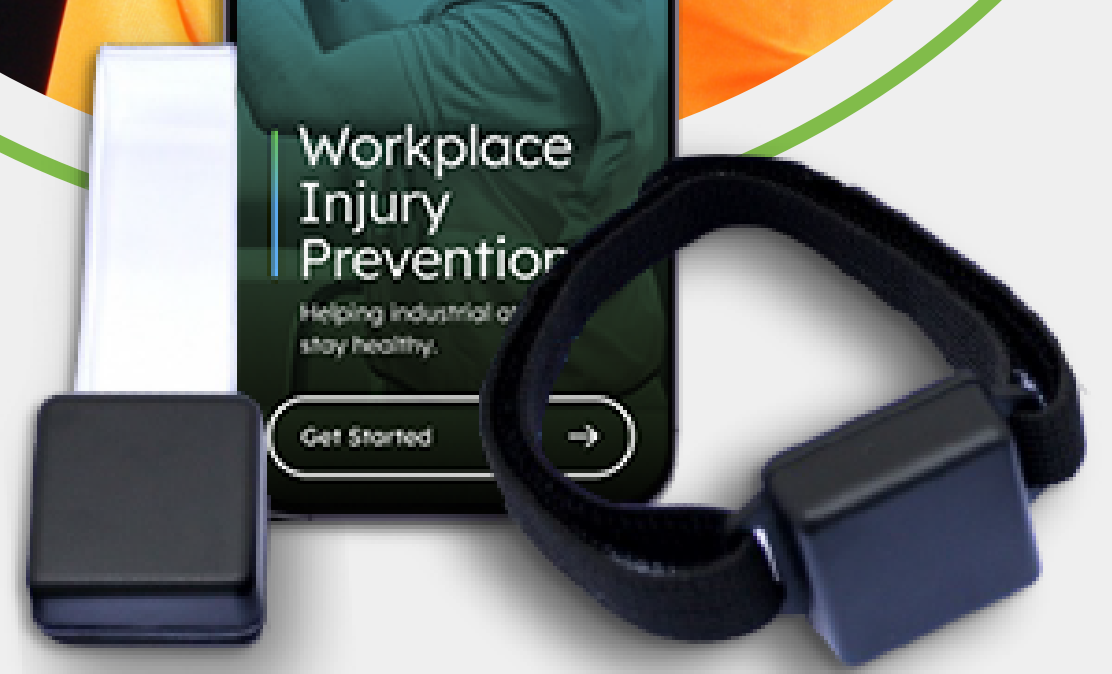

**\$4,500**

- 2 Month Trial\*
- 5 Sets of Sensors
- Up to 30 Workers
- Unlimited Data Collection
- Aussie Technical Support
- Accredited Physio Advice

*\*This same package is \$1,000 per month ongoing, sensors are leased and there are no lock-in contracts.*

# TESTIMONIALS

"Preventure has allowed the SkyCity Health and Safety team to gather meaningful movement data on a range of tasks across our broad range of departments. This data led us to make informed decisions and changes to the way tasks were traditionally completed to mitigate musculoskeletal injury risk and ensure the health and wellness of our people remains our top priority."

**Brad Gerlach**

*Health & Safety Consultant, SkyCity Entertainment Group*

"I have worked in safety for about 30 years, and this has been the best program – or use of technology – that I have been tangled up with."

**Shane Bowering**

*National HSE Manager, Bridgestone Australia*

## DO YOU NEED PREVENTURE?

If you are working to reduce back, shoulder, or lower-limb musculoskeletal injuries across your workforce, you are in the right place. The technology platform is:

- **Cost-effective with real-time alerts**
- **University-validated objective data**
- **Co-designed by Workers, no GPS**
- **Easy to deploy, integrate, and scale**
